Multipresa

Multi-socket

Accattivante soluzione che permette una diversa connessione alla rete elettrica mediante l'utilizzo della multipresa. L'insieme delle sospensioni, regolabili in altezza al momento dell'installazione può essere composto dallo stesso tipo di FATA come da FATE diverse. Le sospensioni sono fornite con cavo lungo 3 metri. E' pertanto obbligatorio l'utilizzo dell'appendimento per decentralizzazione, sia per il posizionamento che per il fissaggio al soffitto della sospensione. La multipresa non va assolutamente utilizzata come rosone; consente l'allacciamento anche di altri apparecchi elettrici. Sono da ordinare a parte: la multipresa, l'appendimento per decentralizzazione e l'eventuale spina elettrica.

Attractive solution that allows a different connection to the electricity supply using the multi-socket. The set of pendants, adjustable in height at the time of installation, can be composed of the same type of Fairy as of different Fairies. Pendants are supplied with a 3-meter-long cable. It's therefore mandatory to use the decentralization support, both for positioning and for fixing the pendant to the ceiling. The multi-socket should not be used as a canopy; allows the connection of other electrical devices as well.

Must be ordered separately: the multi-socket, the eventual decentralization support and plugs.

Insieme composto da:
Set made of:

- 1) Art. PRESA6/BL
- 3) Art. MAN
- 3) Art. PLUG
- 1) Art. LF4/MIX/BM
- 1) Art. LF5/MIX/BM
- 1) Art. LF1/MIX/BM
