# Fate SPR

## “Fate” SPR system

Questa proposta permette di adeguare le nostre FATE all’impianto “a vista” su canaline che Aldo Bernardi propone ormai da anni con successo. Le FATE vanno utilizzate assieme alle scatole di connessione SPR e a canaline in ottone anticato da 16 mm. di diametro, che vanno ordinate a parte. Questa soluzione permette di realizzare una configurazione personalizzata del prodotto, adattato allo spazio disponibile.

This proposal makes possible to adapt our Fairies to the “surface wiring system that Aldo Bernardi is proposing successfully since many years. Fairies must be used together with the SPR connection boxes and antique brass conduits 16 mm.  $\varnothing$ , which must be ordered separately. This solution allows to create a customized configuration of the product, adapted to the available space.
